### ADJUSTABLE PASSENGER STAIRS CDS 3458

Stairs are suitable for servicing all aircrafts with door sill heights from 2,4 up to 5,8 m.

- Welded construction composed of heavy duty metal parts.
- Handrails made out of mild steel.
- Fully zinc metallized (as option) and painted.
- Handrails on upper platform sliding on both sides, 1100 mm high, with protective bumpers on front edges.
- Steps and upper platform covered with aluminium antiskid sheet.
- Manual hydraulic pump for adjusting of height of platform to door-sill height.
- 4 manually operated stabilizers
- 4 wheels with steel rims and solid rubber superelastic tyres.

Stairway width	Weight	Max. load per step	Side wind stability	Max. towing speed
(mm)	<sup>(kg)</sup>	(kg)	(knots)	(km/h)
1200	2980	200	45	25

This product meets the EN 12312-1 standard in the height range 3,4 – 5,8meters

### ADJUSTABLE PASSENGER STAIRS CDS 3458

The chassis is equipped with a parking brake actuated by lifting and locking the drawbar in the upright position.

Front part of upper platform flexibly retractable 100 mm, equipped with protective bumper.

The platform is secured in the selected height with mechanical stops which automatically lock in the holes of the telescopic supports. Locked position is indicated by mechanical and light indicators.

The height of the platform is adjustable in 80 mm intervals.

### ADJUSTABLE PASSENGER STAIRS CDS 3458

### **Optional equipment**

- Lifting powered by diesel or petrol engine
- 2 speed pedestrian movement system with both rear wheels permanent drive (fast 55 m/min, slow speed can be adjusted 15 - 25m/min according to the customer demand)

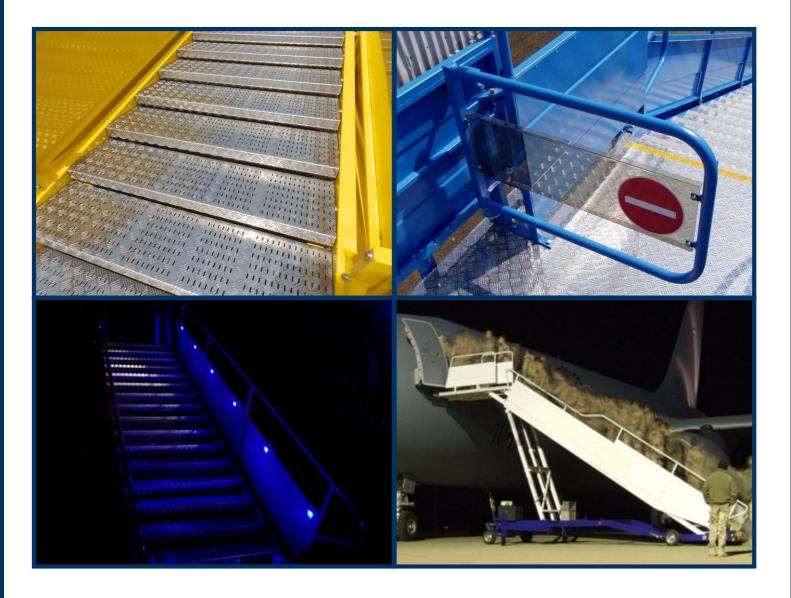

## ADJUSTABLE PASSENGER STAIRS CDS 3458

- Textile ribbon self-winding barier
- Battery charger and socket for 220 V AC
- Punched steps
- Search light
- Beacon
- Colour shade to be defined as per RAL colour chart
- Illumination by LED lamps
- (12 V DC, battery 90 Ah)

### ADJUSTABLE PASSENGER STAIRS CDS 3458

### **Optional versions**

- Fully covered staircase
- Stairs with platform for transport of handicapped passengers
- VIP stairs made according to special customer requirements

### Transport arrangement

1 piece can be transported on 1 lowdeck megatruck with cargo space 11 m long and 3,0 m high. The truck has to allow side-loading by means of forklift.
